PROJECTS

Project-1: Bill-Splitter

- **Goal:**
 - **Developed and deployed a Bill Splitter application** on GitHub that allows users to select a tip percentage, input the number of people, and calculate each person's share, including custom tip and total amounts.
- **Solution:**
 - **Built interactive features** using HTML, CSS, and JavaScript, such as custom tip input, percentage selection, real-time bill calculations, and a reset button.
 - **Deployed the project on GitHub**, providing a live version for easy access and usage.
